

Template Customization Intro

Hey! Are you ready to rock this internship application? We are thrilled to have you here and cannot wait to see what you bring to the table. We want to get to know the real you, so don't hold back! Show us your passion, skills, and why you're the perfect fit for this program. Trust us, this is not an average run-of-the-mill internship - this is your chance to shine and make a difference as we are hunting for getting good full time team members also. So, bring your A-game, let your personality shine, and let's make some magic happen together!

We are excited to have you apply for this internship position! As a selected intern, you will have the opportunity to take on a variety of day-to-day responsibilities that will help develop your skills and give you hands-on experience. Your duties will include:

- Customizing pre-built website templates: You will be tasked with customizing pre-built website templates in accordance with the structure provided by our team. This will involve utilizing your knowledge of HTML, CSS, and JavaScript to customize it and **keep its visually appealing design**. Never build any project in dark mode/theme/profile.
- Content Replacement: As an intern, you will also be responsible for replacing the content in the website templates. Our team will provide the content, and it will be your job to seamlessly integrate it into the template design.
- Basic React Work: You will also work on basic React work, with no use of hooks or other complex features. This will involve gaining an understanding of React components, JSX syntax and nothing much.

We believe that this internship opportunity will provide you with valuable experience and help you develop skills that will prepare you for future career opportunities.

We are looking for CREATIVITY – To keep a visually appealing design, SPEED, KNOW-HOW, & DEDICATION.

We are looking to test if you have the required skills to do the work – please complete one project. You will hear back from us if we are satisfied to proceed. Submission Form Link - https://docs.google.com/forms/d/e/1FAIpQLSe49VfX3S78irzh6-yMmxszY-gjUI0SKx62sKfKmCowSXE6eQ/viewform?usp=sf_link

Compress the next_project folder and upload it to Google Drive. Get link with General access - Anybody with the link.
